

DevOps Pipeline for Wealth Management Firm

Right tools saved 90% deploying to production

Success Story

“ We were looking at strategies for quicker jumps to deployment. ...Iris helped us on DevOps end-to-end: Assessment, Tools selection, reusability and implementation. – Chief Technology Officer ”

CLIENT PROFILE

The client is a market leader Canadian bank with Wealth Management services in many application environments. They were considering how to pilot tools that would automate IT deployments.

BUSINESS CHALLENGE

The client had a stack of applications varying in infrastructure and complexity. The systems all served highly critical financial services for the Wealth Management division that were sensitive to any operational changes. The execution had to deliver improved speed to market keeping disruption to an absolute minimum.

SOLUTION

- Defined the DevOps strategy at enterprise level and identified the scope of applications to be onboarded
- Optimized DevOps implementation time monitoring ease of adoption and complexity
- Performed all knowledge transfer within existing staff to drive engagement via team-specific purposes
- Reduced release integration and deployment from days to hours

BENEFITS

90%

Time and resource savings

3x

Improvement in Time-To-Market

30 hrs

Avg. time on-boarding each App

“Iris cut timeframes way down in moving to Production. Eliminated manual lag in integration and deployment.”
– Iris DevOps Lead

ENVIRONMENT

- Jenkins for **Build Mgt.**
- UrbanCode Deploy (IBM) for **Deployment Mgt.**
- Jira
- Bamboo
- Azure
- TFS
- Maven

About Iris Software

Iris (www.irissoftware.com) is a professional software services organization providing its customers with high-quality, cost-effective solutions and developing mutually beneficial relationships. Iris does this through comprehensive solution offerings with best-of-breed technologies, rapidly deployable solutions, flexible engagement models and proven methodologies. This allows customers to focus on their core competencies, and concentrate IT resources on projects that directly impact their bottom-line.
